DEPARTMENT OF

PUBLIC INSTRUCTION,

Town of Newmarket.

ANNUAL REPORT

OF THE

Board of Education,

FOR THE

Financial Year Ending March 1,

1892.

ORGANIZATION.

Superintendent, CHARLES E. TASKER.

Treasurer, WILLIAM H. PAINE.

Secretary, CHARLES V. DOE.

School Committee's Report.

The law requires the School Committee to make an annual report of the condition of the schools under their care. The facts necessary to determine such condition will be found in the reports made to us by the District Treasurer and Superintendent, which are annexed, and to which reference is now made.

CHARLES E. TASKER,
WILLIAM H. PAINE,
CHARLES V. DOE.

REPORT OF SUPERINTENDENT.

The earth in its ceaseless revolution has brought us again to the close of another school year, and the school report is expected to appear in our town report. About this season of the year some hundreds of persons in this state are exercising their brains on the old threadbare subject of common schools. Some will say this harping on one string so much and so long becomes stale, yet every one wants to see the school report, everybody reads it, old and young, teacher and parent. Harping upon one string has sometimes produced great results. It has brought about some of the greatest political and moral results and revolutions ever witnessed, both in this country and in the old world. In a minor point of view, many of the suggestions made yearly in relation to our common schools are heeded and put in practice, and the result is changes are made in the methods of imparting instruction which prove as a rule to be an improvement, and the result is better schools and better teachers, so that the labor involved in making our annual report is by no means wholly lost.

Our forefathers considered the general diffusion of knowledge throughout all classes so essential to the prosperity and happiness of a nation that one of their first acts was to establish a system of free schools, which would afford the means of an education to all. Since that time this system has been maintained. A prominent statesman of later times has said, "The preservation of the means of knowledge among all classes is of more importance to the public than the property of all the rich men in the country." The doors of our school-houses are open to all, and he who will not enter and receive the benefits there offered, but chooses to grow

up in ignorance may, well be said to be a "blot upon humanity." Therefore it is incumbent upon all parents and guardians to see that the children under their care obtain a correct education.

The heart of the parent is bound up in his child, and whatever interests and benefits the child calls out the attention of the parent, and no one who has the care of the young entrusted to him, that is alive to the importance of the charge, can fail to see that the mind of the youth must be guided in the right way; that the young sometimes need to be urged on and encouraged, and sometimes they require restraint, in order that their mental and moral development may be correct and symmetrical to such a degree that they may at any time call out and use any or all of the faculties of the mind as they may be required. The mind must be disciplined and trained to be able to do this. This training of the youthful mind is entrusted first of all to the parent, then, as the child passes out from the direct supervision of the parent, he is placed under the care of teachers, who should feel as much as possible the care and solicitude of a parent.

At this point the common school comes in—afterwards schools of a higher grade—and as each child's school-days form a very important part of their lives it is the duty of all concerned to do all in their power to promote the best interests of our schools. If parents would make the most of our school privileges, I can hardly conceive of a limit to the possibilities of our schools. My idea is that parents should feel that nothing must interfere with the school. Everything should be so arranged that the child may secure every hour of school, and with an interest that is fresh, not deadened by severe duties out of school. These school privileges are worth something more than a few days' labor, than the opportunity to earn a little money, for the loss of labor may be redeemed; money may be earned at another time; but these school-days can never be enjoyed again; there is no economy in nature by which these can be redeemed. Get the most from our public schools, should be the motto of parents, and they should guard

against everything outside of school that engages the children's attention or detracts from their interest in school work.

The question is often raised, What is a day's absence? Not much, the scholar thinks, and the parent is often of the same opinion, but it may take several days for the pupil to recover from the dissipating effect of that single day, and it is a derangement to the school that is felt for a long time. Irregularity in attendance is certainly a most serious evil in some of our schools, and should be remedied in some way. Punctuality is indispensable to a good school; tardiness and any irregularity in attendance cripple the energies and impairs the usefulness of the best teachers, and this is mostly the result of inconsideration on the part of parents. Order is indispensable to a good school. But little can be accomplished by a teacher of the best literary qualifications without order. This is more important to the pupil than any of his studies. Unless the child learns to be in subjection and controls himself, he has failed in the most important part of his education.

It is the opinion of your committee that our schools during the past year have done good work, and have compared favorably with the schools of other years, yet they may not have attained to that standard of excellence which might be desirable. In some instances, perhaps, there may have been a defect on the part of teachers, though we think the town has never had a corps of better qualified teachers; perhaps in some instances parents have been too hasty in passing judgment without any definite knowledge of either teacher or the school. The task of a teacher is sufficiently difficult when sustained and encouraged by the wisest counsel and the tenderest sympathy. Parents often find it extremely difficult to properly train and direct the minds of their own children. How much greater must be the task to govern forty or fifty children, belonging to thirty or more families, reared under different influences and controlled by different motives. A good teacher can do very much toward making a school

what it should be, but not the whole work; they need the sympathy and co-operation of parents, in order that the schools under their charge may have correct moral discipline, and thorough and effective instruction. It should be understood the most fragile girl who sits in the teacher's chair wields, so far as her school is concerned, all the authority of the State of New Hampshire, and that not her physical strength alone, but the courts, the executive officers if need be, may at any moment be called in to sustain that authority.

Music has been taught more thoroughly in our schools the past year than ever before. The advantages of this exercise in cultivating the powers of the voice, which are so requisite in good reading, are incalculably great. A great advantage of the introduction of these exercises will be found in the effects on the general tone of the mind of the pupils, giving them a cheerfulness and an elasticity of mind favorable to a more successful prosecution of their studies. In its effects on school discipline, the study of music is of great utility. It has been justly remarked that it cultivates the habits of order, obedience and union. All must follow a precise rule; all must act together, and in obedience to a leader; and the habit acquired in one part of our pursuits, necessarily affects others. This study is now established in all the best schools in our state, and its importance as a part of the elementary training of children, ought not to be overlooked.

We are convinced that the year has been one of more than ordinary prosperity and success. Both scholars and teachers have attended to their respective duties, with commendable zeal and encouraging results.

Citizens and friends of education, you have an interest in the welfare of our schools, and so your works and influence should be directed toward their improvement. Our schools should be considered among the most honored institutions of our land; and they should be more highly favored as such. They are the nurseries of the intelligence and enterprise of an enlightened coun-

try. They are emphatically the colleges of our common people, where still, at the present day, as ever has been, most of our young men and women graduate, to enter upon the business of life, and they are poorly or better qualified according to the advantages here afforded. Here, correct training and the best elementary instruction is ever necessary; for it is in the public school, as well as at the fireside at home, where the mind of youth receives many of those living impressions, which afterward mark the character of that man or woman. For such reasons, if for none other, our schools demand more of a consideration, and we have one common interest in improving them, till they become all that is possible for them to be, even models in themselves.

CHARLES E. TASKER,
Superintendent of Schools.

- FIRST GRAMMAR.—Bessie Leavitt, Agnes Connor, Mabel Mathes, Mabel Vittum, Julia Roberts.
- INTERMEDIATE.—Fred Randall, Mattie Maguire, Albert Smith.
- DURHAM SIDE PRIMARY.—John H. Stevens, Freddie A. Chapman.
- PLAINS.—Eunice Randall, Fred Thompson, Lewis Thompson, Willie Ford.

ATTENDANCE AND GENERAL DUTIES OF TEACHERS.

- III. Teachers are required to be at their respective school rooms at least ten minutes before the commencement of the sessions both morning and afternoon. A strict observance of the hours of commencing and closing is required. No teacher shall be absent from the school without the consent of the School Committee. No teacher shall ever introduce a substitute into the school without the express sanction of the School Committee. The teachers are required to observe and carry into effect all the regulations of the School Committee in relation to the instruction, discipline and general management of the schools, and to consult him freely on occasions of serious difficulty, to the end that all parties may work in unison and be of mutual support.

OPENING EXERCISES.

- IV. The morning session shall be opened with the reading of the Scriptures.

SCHOOL REGISTERS.

- V. Every school shall be furnished with a record book, in which shall be registered the names, ages, absence and tardiness of each scholar, and the daily average rank in recitation and deportment, and the register shall be open for the inspection of visitors.

ABSENCE, TARDINESS, DISMISSALS.

- VI. The names of pupils who are habitually absent or tardy shall be reported by the teachers to the parents, the School Committee, and also to the truant officer. In every instance of absence or tardiness a written statement or personal explanation shall be required of the parent or guardian on the return of the pupil to school or at the next session, that the teacher may know whether the cause is legitimate or otherwise. No pupil shall be allowed to leave school before its dismissal, except for satisfactory reasons, without a written or personal request from parent or guardian.

RULES AND REGULATIONS

FOR THE

PUBLIC SCHOOLS.

- I. The Public Schools of Newmarket shall be divided into the following grades: Primary, 1st and 2d, Intermediate, Grammar, 1st and 2d, and High.

SCHOOL HOURS.

- II. The time for opening and closing the village schools will, for the present, be regulated by verbal directions from the School Committee. When there is a severe storm of rain or snow, the janitor will ascertain whether, in the opinion of the School Committee, the weather is such as to render it imprudent for the children to attend school. If it is so considered he will strike three signals on the Congregational church bell, each signal to consist of three rapid strokes of the hammer followed by an interval of rest. The "No School Signal" may be expected at 7.45 o'clock, A. M. and at 1 o'clock, P. M. The signal at 7.45 does not affect the afternoon session. If, on account of the weather the schools do not keep in the morning, but do keep in the afternoon, the afternoon session for that day will be three and one-half hours, in the High School building, and three hours in the Primaries, with a suitable recess. The morning session will always close at 12 o'clock, M. The teachers will not dismiss their schools or change the school hours except by permission of the School Committee.

SCHOLARS LIMITED TO SCHOOL GROUNDS.

- VII. No pupil shall leave the school-grounds during school hours, except by permission of the teacher.

CLEANLINESS OF SCHOLARS.

- VIII. Personal cleanliness must be required of every pupil. Teachers are expected to rigidly enforce this rule.

GOOD MORALS.

- IX. Good morals being of the first importance to the pupils, and essential to their highest progress in useful knowledge, instruction therein shall be given in each of the schools, and the principles of truth and virtue faithfully inculcated upon all suitable occasions. The pupils shall be carefully instructed to avoid idleness and profranity, falsehood and deceit, and every wicked and disgraceful practice, and to conduct themselves in an orderly, courteous and respectful manner; and it shall be the duty of the instructors, so far as practicable, to exercise a general inspection over them, in these regards, both in and out of school, and also while going to the same and returning home.

VENTILATION.

- X. Teachers shall give special attention to the ventilation and temperature of their school rooms, both in summer and winter, and see that the air is thoroughly changed at each recess and at the close of each school session.

SUPERVISION OF PRINCIPAL.

- XI. The Principal of the High School shall have general supervision of the buildings and yard in which he teaches, and shall be held responsible for all school property, and for the general discipline of the schools in his building outside their respective rooms. He shall also assist the several teachers, when necessary, in the enforcement of rules of discipline and order; and it shall be the duty of the several teachers to co-operate with him in the discharge of his general duties.

CARE OF SCHOOL PREMISES.

- XII. Teachers shall be held responsible for any want of decorum or neatness about the school premises, and also for all damage done to the school property in their respective rooms during school hours. Any pupil who shall write any indecent language or draw any obscene or indecent pictures or representations on any part of the school premises shall be liable to expulsion.

BOOKS AND UTENSILS.

- XIII. Resident pupils are furnished with the books and utensils required in their respective classes, under the provisions of the statutes.

SUBJECTS TO BE EXPLAINED AND INSTRUCTION TO BE THOROUGH AND PRACTICAL.

- XIV. The teachers are required to illustrate and explain the subjects of study in such language and by such methods of their own as shall find the readiest access to the understanding of the pupils. And the instruction should be thorough, and made practical by showing to the pupils distinctly the various applications to the common affairs of life that may be made of the knowledge they are acquiring at school.

NON-RESIDENTS.

- XV. Non-residents shall not attend the schools of this town except by consent of the Board of Education and the payment of such tuition as shall be determined.

DETENTION OF PUPILS.

- XVI. No pupils shall be detained in the school room during a full session of the school; if deprived of recess from any cause, a reasonable absence shall be granted sometime during the session.

GOVERNMENT OF THE SCHOOL.

- XVII. The discipline of the schools shall be of parental character; such as a kind, judicious and faithful parent would exercise in the family. Corporal punishment shall be resorted to only when other means fail.

SUSPENSION OF PUPILS.

- XVIII. Scholars will be suspended from school for persistent disobedience, and when so suspended will not be allowed to return without permission from the School Committee.

OBEDIENCE TO PRINCIPAL.

- XIX. All pupils in the High School building are expected to obey promptly and cheerfully all rules or regulations made by the Principal for the government of the school, and shall not in any way whatever use his or her influence over any pupil or pupils in the schools in High School building in opposition to the rules or regulations made by the Principal, and for any violation of any part of any rule or regulation they shall be considered subject to expulsion.

ABSENCE FOR HALF A TERM.

- XX. Any pupil who shall from any cause absent himself from school for half a term shall not be allowed to rejoin his class without satisfactory evidence of proficiency in the studies pursued during the absence being presented to School Committee.

CONTRIBUTIONS, SUBSCRIPTIONS, ADVERTISEMENTS, &C.

- XXI. No contributions or subscriptions shall be introduced into any school; and no person shall be allowed to occupy the time of a school by giving any notice or advertisement to the pupils or teachers, and no person not connected with the schools shall be permitted to address the pupils on any subject not pertaining to their studies, except by permission of the School Committee.

PROMOTION.

- XXII. Promotions will be made at the commencement of the school year, but any pupil who shall excel in scholarship may be promoted at any time upon passing a satisfactory examination by the School Committee. In determining promotions a yearly average of 70 per cent. of correct answers shall be required for entry to the High School, and for promotion from class to class therein. But no scholar shall be promoted who shall rank less than 50 per cent. in any study. Promotions in the Grammar Schools shall be determined in the same manner, excepting that the required average shall be 66 per cent. and not less than 50 per cent. in any study. In the High and Grammar Schools daily recitations shall be ranked, and considered in finding the general average, equally with written examinations, and an oral examination shall be taken at the close of each school year, and considered likewise.

DIPLOMAS.

- XXIII. Diplomas shall be awarded at the close of the school year to such pupils of the High School as shall have completed the prescribed course to the satisfaction of the School Committee. Certificates of graduation will be awarded to all pupils who satisfactorily complete the course of study in the Grammar Schools, but no such certificates will be awarded to pupils whose average per cent. is less than 70 for the last year.

COPY OF REGULATIONS TO BE KEPT IN SCHOOL.

- XXIV. A copy of these regulations shall be kept upon the desk in each school room, and teachers are required to read them before the school at the commencement of each term, and allow visitors to freely consult the same.

CHARLES E. TASKER,
Superintendent.

COURSE OF STUDY

IN THE

PUBLIC SCHOOLS.
