ANNUAL REPORT

OF THE

Board of Education.

FOR THE

Financial Year Ending March 1,

1893.

## ORGANIZATION.

Superintendent, CHARLES E. TASKER.

Treasurer, WILLIAM H. PAINE.

Secretary, CHARLES V. DOE.

---

## School Committee's Report.

---

The law requires the School Committee to make an annual report of the condition of the schools under their care. The facts necessary to determine such condition will be found in the reports made to us by the District Treasurer and Superintendent, which are annexed, and to which reference is now made.

CHARLES E. TASKER,

WILLIAM H. PAINE,

CHARLES V. DOE.

## REPORT OF SUPERINTENDENT.

---

In presenting the annual report, as required by law, it affords us pleasure to say that our schools have made good progress during the year. It has been our aim to secure good teachers and retain them through the year. We regret to say that during this year, as in former years, there has been an apparent lack of interest in some of the schools, on the part of the parents. We believe it is the duty of parents to look well to the education of their children. An hour or two cannot be more profitably spent than with your children in the school room. Your interest would encourage them to be more punctual, and they would strive to attain a higher rank and a better record. Personal interest of citizens and parents and intelligent knowledge of the work done in the school room are essential helps and encouragements to teachers and scholars; such knowledge may remove prejudices and be an incentive to industry. Parents should make it their business to drop in during the regular working hours of the school; to be at a general exercise or examination is well, but not enough. An interested overseer is around when the workmen are in their working clothes and the regular work going on, rather than at dress parade, if he wants to judge of their capacity and the quality of their work.

We would recommend that the parents visit our schools more frequently and encourage the teachers and pupils by their presence, and any suggestions made by them for the advantage of the school would be gratefully received. It is an injury to any school for those outside to be finding fault with the teacher without any just cause, where in many instances an investigation would show the fault to be somewhere else.

The schools of the town are in a good condition. The teachers have labored zealously for the good of the schools. They have endeavored to teach the pupils in a thorough manner, and have been sustained by the School Board, and we contend that any other method of teaching is a damage to the scholars. It is better for the scholars to learn a little and learn it thoroughly than to make rapid progress and know little of what they have studied. The order in the schools as a rule has been good. Without order, progress must be slow and the school worthless. When a parent or guardian sends a child to school the authority to govern the child goes with the child, and the teacher has the same authority to correct him for wrong-doing that the parents would have over him at home. The School Board hold the teachers responsible for the order in their schools, and will sustain them in all cases when they correct the scholars in a reasonable manner, and we expect the parents to sustain the teachers in all cases and to give them their aid in maintaining the order of the school. The teacher's position is one of responsibility; her duty is not only to teach the children but to instill into their minds love for all that is good and an abhorrence for all that is evil, and place them upon the right path to happiness, honor and virtue, that they may become useful citizens and a credit to the community in which they live. The needed qualifications of a teacher are not only learning enough to teach school but something more. The minds of children are easily molded, and they will be influenced more or less by those with whom they associate, and as they are with the teachers a large

part of the time for thirty weeks or more in the year, the teachers, if they do their duty, will try to plant in their minds the seeds of goodness, honesty and truthfulness which will bear fruit in after years.

We have now had three years' experience in having textbooks furnished at the expense of the town, and good results of the law requiring this have been seen in our schools. The scholars are all provided with necessary books, and the school work is much more satisfactorily done by the teacher. The orders for books and the other school supplies are, as a rule, issued by the teachers and filled by members of the School Board, who generally have confidence that the teachers know the wants of the schools. It is expected that teachers will keep a correct account in their text-book records of the books furnished them and their condition when delivered to each scholar, and note also their condition at the end of each term or the year. Those to whom books are loaned should be held responsible for the proper care of them. It has been observable that the books in some schools are much better kept than in others. This difference is owing somewhat to the care of the teachers, as well as to the different habits of pupils. It appears that some teachers practice more economy in the use of such supplies as pens, paper, pencils and crayons. The town furnishes these for the proper use of pupils at school, but they are not to be wasted, thrown away or carried off as though of no account because the cost of them is comparatively small.

In review of our schools of the past year, we have reason to feel that they have, as a whole, been as prosperous as ever before. It is evident that they should be better, for the reason that more is now being done for them than in any former time. More money is being appropriated for school purposes, and as a rule more experienced and better teachers are employed, who must, in the present time, be better paid to retain them. The superior advantages of our schools should be more highly appre-

ciated. Our common schools are a priceless legacy bequeathed to us, which should be carefully treasured and improved, they being the foundation stones upon which depends the stability of our government.

CHARLES E. TASKER,

*Superintendent.*

# RULES AND REGULATIONS

FOR THE

## PUBLIC SCHOOLS.

I. The Public Schools of Newmarket shall be divided into the following grades: Primary, First and Second, Intermediate, Grammar, First and Second, and High.

### SCHOOL HOURS.

II. The time for opening and closing the village schools will, for the present, be regulated by verbal directions from the Board of Education. When there is a severe storm of rain or snow the Janitor will ascertain whether, in the opinion of the Board of Education, the weather is such as to render it imprudent for the children to attend school. If it is so considered he will strike three signals on the Congregational church bell, each signal to consist of three rapid strokes of the hammer followed by an interval of rest. The "No School Signal" may be expected at 7.45 o'clock A. M. and at 1 o'clock P. M. The signal at 7.45 does not affect the afternoon session. If, on account of the weather, the schools do not keep in the morning but do keep in the afternoon, the afternoon session for that day will be three and one-half hours in the High School building and three hours in the Primaries, with a suitable recess. The morning session will always close at 12 o'clock M. The teachers will not dismiss their schools nor change the school hours except by permission of the Board of Education.

### ATTENDANCE AND GENERAL DUTIES OF TEACHERS.

III. Teachers are required to be at their respective school rooms at least ten minutes before the commencement of the sessions, both morning and afternoon. A strict observance of the hours of commencing and closing is required. No teacher shall be absent from the school without the consent of the Board of Education. No teacher shall ever introduce a substitute into the school without the express sanction of the Board of Education. The teachers are required to observe and carry into effect all the regulations of the Board of Education in relation to the instruction, discipline and general management of the schools and to consult him freely on occasions of serious difficulty, to the end that all parties may work in unison and be of mutual support.

### OPENING EXERCISES.

IV. The morning session shall be opened with the reading of the Scriptures.

### SCHOOL REGISTERS.

V. Every school shall be furnished with a record book, in which shall be registered the names, ages, absence and tardiness of each scholar, and the daily average rank in recitation and deportment, and the register shall be open for the inspection of visitors.

### ABSENCE, TARDINESS, DISMISSALS.

VI. The names of pupils who are habitually absent or tardy shall be reported by the teachers to the parents, the Board of Education, and also to the Truant Officer. In every instance of absence or tardiness a written statement or personal explanation shall be required of the parent or guardian on the return of the pupil to school or at the next session, that the teacher may know whether the cause is legitimate or otherwise. No pupil shall be allowed to leave school before its dismissal, except for satisfactory reasons, without a written or personal request from parent or guardian.

## SCHOLARS LIMITED TO SCHOOL GROUNDS.

- VII. No pupil shall leave the school grounds during school hours, except by permission of the teacher.

## CLEANLINESS OF SCHOLARS.

- VIII. Personal cleanliness must be required of every pupil. Teachers are expected to rigidly enforce this rule.

## GOOD MORALS.

- IX. Good morals being of the first importance to the pupils, and essential to their highest progress in useful knowledge, instruction therein shall be given in each of the schools, and the principles of truth and virtue faithfully inculcated upon all suitable occasions. The pupils shall be carefully instructed to avoid idleness and profanity, falsehood and deceit and every wicked and disgraceful practice, and to conduct themselves in an orderly, courteous and respectful manner; and it shall be the duty of the instructors, so far as practicable, to exercise a general inspection over them, in these regards, both in and out of school, and also while going to the same and returning home.

## VENTILATION.

- X. Teachers shall give special attention to the ventilation and temperature of their school rooms, both in summer and winter, and see that the air is thoroughly changed at each recess and at the close of each school session.

## SUPERVISION OF PRINCIPAL.

- XI. The Principal of the High School shall have general supervision of the buildings and yard in which he teaches, and shall be held responsible for all school property and for the general discipline of the schools in his building outside their respective rooms. He shall also assist the several teachers, when necessary, in the enforcement of rules of discipline and order; and it shall be the duty of the several teachers to co-operate with him in the discharge of his general duties.

## CARE OF SCHOOL PREMISES.

- XII. Teachers shall be held responsible for any want of decorum or neatness about the school premises, and also for all damage done to the school property in their respective rooms during school hours. Any pupil who shall write any indecent language or draw any obscene or indecent pictures or representations on any part of the school premises shall be liable to expulsion.

## BOOKS AND UTENSILS.

- XIII. Resident pupils are furnished with the books and utensils required in their respective classes; under the provisions of the statutes.

## SUBJECTS TO BE EXPLAINED AND INSTRUCTION TO BE THOROUGH AND PRACTICAL.

- XIV. The teachers are required to illustrate and explain the subjects of study in such language and by such methods of their own as shall find the readiest access to the understanding of the pupils. And the instruction should be thorough, and made practical by showing to the pupils distinctly the various applications to the common affairs of life that may be made of the knowledge they are acquiring at school.

## NON-RESIDENTS.

- XV. Non-residents shall not attend the schools of this town except by consent of the Board of Education and the payment of such tuition as shall be determined.

## DETENTION OF PUPILS.

- XVI. No pupils shall be detained in the school room during a full session of the school; if deprived of recess from any cause, a reasonable absence shall be granted some time during the session.

## GOVERNMENT OF THE SCHOOL.

- XVII. The discipline of the schools shall be of parental character; such as a kind, judicious and faithful parent would exercise in the family. Corporal punishment shall be resorted to only when other means fail.

## SUSPENSION OF PUPILS.

- XVIII. Scholars will be suspended from school for persistent disobedience, and when so suspended will not be allowed to return without permission from the Board of Education.

## OBEDIENCE TO PRINCIPAL.

- XIX. All pupils in the High School building are expected to obey promptly and cheerfully all rules or regulations made by the Principal for the government of the school, and shall not in any way whatever use his or her influence over any pupil or pupils in the schools in the High School building in opposition to the rules or regulations made by the Principal, and for any violation of any part of any rule or regulation they shall be considered subject to expulsion.

## ABSENCE FOR HALF A TERM.

- XX. Any pupil who shall from any cause absent himself from school for half a term shall not be allowed to rejoin his class without satisfactory evidence of proficiency in the studies pursued during the absence being presented to the Board of Education.

## CONTRIBUTIONS, SUBSCRIPTIONS, ADVERTISEMENTS, ETC.

- XXI. No contributions or subscriptions shall be introduced into any school; and no person shall be allowed to occupy the time of a school by giving any notice or advertisement to the pupils or teachers, and no person not connected with the schools shall be permitted to address the pupils on any subject not pertaining to their studies, except by permission of the Board of Education.

## PROMOTION.

- XXII. Promotions will be made at the commencement of the school year, but any pupil who shall excel in scholarship may be promoted at any time upon passing a satisfactory examination by the Board of Education. In determining promotions a yearly average of 70 per cent. of correct answers shall be required for entry to the High School and for promotion from class to class therein. But no scholar shall be promoted who shall rank less than 50 per cent. in any study. Promotions in the Grammar Schools shall be determined in the same manner, excepting that the required average shall be 66 per cent. and not less than 50 per cent. in any study. In the High and Grammar Schools daily recitations shall be ranked, and considered in finding the general average, equally with written examinations, and an oral examination shall be taken at the close of each school year, and considered likewise.

## DIPLOMAS.

- XXIII. Diplomas shall be awarded at the close of the school year to such pupils of the High School as shall have completed the prescribed course to the satisfaction of the Board of Education. Certificates of graduation will be awarded to all pupils who satisfactorily complete the course of study in the Grammar Schools, but no such certificates will be awarded to pupils whose average per cent. is less than 70 for the last year.

## COPY OF REGULATIONS TO BE KEPT IN SCHOOL.

- XXIV. A copy of the regulations shall be kept upon the desk in each school room, and teachers are required to read them before the school at the commencement of each term, and allow visitors to freely consult the same.

CHARLES E. TASKER,

*Superintendent.*

# PUBLIC LIBRARY.

## REPORT OF LIBRARIAN.

The year just closed differs from preceding years inasmuch as the annual appropriation of money has been largely expended for other purposes than the purchase of books. The large increase of books demanded new shelves, which have been furnished, and the many imperfections of the old catalogue imperatively demanded a new catalogue, which has been furnished by the trustees, from the sale of which it is expected that a large portion of the expense will be refunded.

The card system for distribution of books, introduced two years ago, works admirably and more than compensates for the extra expense incurred.

During the year the salary of the Librarian has been increased to one hundred dollars.

The balance of the appropriation has been expended for replacing books that have been condemned as worthless from usage.

A generous appropriation for the ensuing year is earnestly solicited, since the public library stands second only to the common schools as a public educator.

JOSEPH L. ELKINS, *Librarian.*

MRS. LIZZIE C. WILLEY, *Assistant Librarian.*
