The Town Farm has been leased to Edwin S. Carpenter for two hundred and twenty-five dollars, two hundred dollars to be paid in cash, and twenty-five dollars in labor, improving the pastures each year. Should the Town vote to sell said farm at any time before the expiration of this lease, then said lease is void by giving said Carpenter a reasonable notice.

DEPARTMENT OF
PUBLIC INSTRUCTION,

Town of Newmarket.

ANNUAL REPORT

OF THE

Board of Education,

FOR THE

Financial Year Ending March 1,

1891.

ORGANIZATION.

Superintendent, CHARLES E. TASKER.

Treasurer, WILLIAM T. FOLSOM.

Secretary, WILLIAM H. PAINE.

School Committee's Report.

The law requires the School Committee to make an annual report of the condition of the schools under their care. The facts necessary to determine such condition will be found in the reports made to us by the District Treasurer and Superintendent, which are annexed, and to which reference is now made.

WILLIAM T. FOLSOM,
CHARLES E. TASKER,
WILLIAM H. PAINE.

REPORT OF SUPERINTENDENT.

To the citizens of Newmarket the Board of Education make the following report.

Again the close of another school year comes around, and the committee's annual report is called for, which is herewith respectfully submitted. The subject of schools must of necessity call forth many suggestions and observations covering ground that has often been gone over; still it is always ground that involves matters of much importance to our best interests as citizens of this town and state. The question might be asked with propriety: For what purpose and for whom have we built our several school buildings, and for whose benefit do we support our schools? Not for ourselves, but for those dearer to us in life who are to come after us; that the boys and girls of Newmarket may be thoroughly instructed in good manners and good morals, the possession of which is an important condition of successful life. By good morals, we mean the great principles of right and wrong which every sensible parent accepts and values, and which if disregarded in the foundation and administration of states and towns, will be the cause of their downfall sooner or later; also to qualify our children for self-support and intelligent citizenship. If this government, the grandest ever on earth, is to endure as a popular government, as a government of the people, by the people and for the people, that people must be an intelligent people. Not that they need to be deeply learned in the various branches of Science and Philosophy, but well informed in the elements of good citizenship, particularly in those defining the common duties of man to his fellowman and of the citizen to the state.

In most respects the year has been one marked with prosperity and success. Unusual proficiency and good general results have been maintained. While all that the most sanguine might desire has not been accomplished, still all that might reasonably be expected has been accomplished, inviting all the children and youth of suitable age to their advantages, and thoroughly and faithfully instructing them. During the current year, it has been necessary to fill the places of some of the best teachers it has ever been your fortune to possess, with whose superior work you are well acquainted. But we believe these vacancies have been filled with thorough and capable teachers, worthy of any position of educational trust and responsibility. It is unfortunate that these changes should occur so often, because a change of teachers is always attended by more or less difficulty and dissatisfaction, but which is often entirely unnecessary. A new teacher labors under many serious disadvantages. Teacher and scholar must form new associations, give and receive fresh impressions, and learn the ways and peculiarities of each other. The ties of friendship that bind the scholar to the teacher are strong, and their quickly formed prejudices are equally strong. The new teacher must be tried many times over by critical watchers, who judge only from a child's standpoint, which is a poor criterion to judge of a teacher's merits or demerits.

You have been fortunate in securing a corps of teachers so well furnished for their responsible work,—a work which demands the best talent, most liberally cultivated. We feel that you may congratulate yourselves that your children are placed under the charge of those who will faithfully guard their best interests and are worthy of your fullest confidence. The interests of your schools, and of the young, are of vital importance to the future welfare of the community and should receive the candid support of every citizen, and even then with the hearty support and cooperation of parents and people, a teacher's position demands all the reserve power at his command, in order to awaken in the

minds of his pupils an enthusiastic interest in their studies and a love for them, which are indispensable qualifications for the highest success.

HIGH SCHOOL.

This school is in a most flourishing condition, and reflects much honor upon its superior and able principal. Its numbers are fully up to the average, and its course of studies much more complete. During the past year valuable additions have been made to the apparatus belonging to the school, thus enabling its teacher to do much more satisfactory work in teaching the sciences. Now it is as thoroughly equipped as a school need be, and doing a most valuable work, not only for its pupils, but for the cause of education, elevating the standard and awakening fresh interest, and the present high standing of all our schools is due in no small degree to the effective work and high standard of discipline which it maintains.

DISCIPLINE.

Questions of discipline necessarily arise, demanding careful consideration and prompt and decisive action. But they rarely result in serious difficulty, if not interfered with by those not directly interested, and if treated in a spirit of sincerity for the child's good. That is the best condition in a school where difficulties are not permitted to arise. It is a high standard of school government, when the necessity of school discipline is almost unknown, and such has been the case during the past year in most of our schools. Your committee believes in a strict and impartial school government, such as a wise, judicious and faithful parent would exercise in the family, and which will unfold in every child the best qualities, and stimulate the highest principles and purposes. Your schools are created for the scholar first, and next for the people who support them. Their great aim is to educate the young for fitness for life and its realities, and to do this, thorough discipline must be maintained in every department.

UNGRADED SCHOOLS.

Thirty weeks of schooling have been provided for the Plains, and the Grant and Four Corners have also had the same number of weeks, fifteen weeks at each place. Twenty weeks at Pine Hill. These schools have all had excellent teachers, and good progress has been made.

Four statistical tables are annexed, and are to be considered a part of this report of the doings and condition of the schools, and as our schools are in such perfect subjection and order, there seems to be no need for other remarks at this time. If there is one thing more to be desired than another, it is that the children and youth of Newmarket may be blessed with a good education and a noble character, and for which no cost can be too great. Your schools are of more consequence than any other interest you may have. Look well to the sacred trust committed to your care. Continue to support them as liberally as you now do, and you will find your reward in results above the value of figures.

CHARLES E. TASKER,

Superintendent of Schools.

Newmarket, N. H., March 1, 1891.

FOR THE

PUBLIC SCHOOLS.

- I. The Public Schools of Newmarket shall be divided into the following grades: Primary, 1st and 2d, Intermediate, Grammar, 1st and 2d, and High.

SCHOOL HOURS.

- II. The time for opening and closing the village schools will, for the present, be regulated by verbal directions from the School Committee. When there is a severe storm of rain or snow, the janitor will ascertain whether, in the opinion of the School Committee, the weather is such as to render it imprudent for the children to attend school. If it so considered he will strike three signals on the Congregational church bell, each signal to consist of three rapid strokes of the hammer followed by an interval of rest. The "No School Signal" may be expected at 7.45 o'clock, A. M. and at 1 o'clock, P. M. The signal at 7.45 does not affect the afternoon session. If, on account of the weather the schools do not keep in the morning, but do keep in the afternoon, the afternoon session for that day will be three and one-half hours, in the High School building, and three hours in the Primaries, with a suitable recess. The morning session will always close at 12 o'clock, M. The teachers will not dismiss their schools or change the school hours except by permission of the School Committee.

ATTENDANCE AND GENERAL DUTIES OF TEACHERS.

- III. Teachers are required to be at their respective school rooms at least ten minutes before the commencement of the sessions both morning and afternoon. A strict observance of the hours of commencing and closing is required. No teacher shall be absent from the school without the consent of the School Committee. No teacher shall ever introduce a substitute into the school without the express sanction of the School Committee. The teachers are required to observe and carry into effect all the regulations of the School Committee in relation to the instruction, discipline and general management of the schools, and to consult him freely on occasions of serious difficulty, to the end that all parties may work in unison and be of mutual support.

OPENING EXERCISES.

- IV. The morning session shall be opened with the reading of the Scriptures.

SCHOOL REGISTERS.

- V. Every school shall be furnished with a record book, in which shall be registered the names, ages, absence and tardiness of each scholar, and the daily average rank in recitation and deportment, and the register shall be open for the inspection of visitors.

ABSENCE, TARDINESS, DISMISSALS.

- VI. The names of pupils who are habitually absent or tardy shall be reported by the teachers to the parents, the School Committee, and also to the truant officer. In every instance of absence or tardiness a written statement or personal explanation shall be required of the parent or guardian on the return of the pupil to school or at the next session, that the teacher may know whether the cause is legitimate or otherwise. No pupil shall be allowed to leave school before its dismissal, except for satisfactory reasons, without a written or personal request from parent or guardian.

SCHOLARS LIMITED TO SCHOOL GROUNDS.

- VII. No pupil shall leave the school-grounds during school hours, except by permission of the teacher.

CLEANLINESS OF SCHOLARS.

- VIII. Personal cleanliness must be required of every pupil. Teachers are expected to rigidly enforce this rule.

GOOD MORALS.

- IX. Good morals being of the first importance to the pupils, and essential to their highest progress in useful knowledge, instruction therein shall be given in each of the schools, and the principles of truth and virtue faithfully inculcated upon all suitable occasions. The pupils shall be carefully instructed to avoid idleness and profanity, falsehood and deceit, and every wicked and disgraceful practice, and to conduct themselves in an orderly, courteous and respectful manner; and it shall be the duty of the instructors, so far as practicable, to exercise a general inspection over them, in these regards, both in and out of school, and also while going to the same and returning home.

VENTILATION.

- X. Teachers shall give special attention to the ventilation and temperature of their school rooms, both in summer and winter, and see that the air is thoroughly changed at each recess and at the close of each school session.

SUPERVISION OF PRINCIPAL.

- XI. The Principal of the High School shall have general supervision of the buildings and yard in which he teaches, and shall be held responsible for all school property, and for the general discipline of the schools in his building outside their respective rooms. He shall also assist the several teachers, when necessary, in the enforcement of rules of discipline and order; and it shall be the duty of the several teachers to co-operate with him in the discharge of his general duties.

CARE OF SCHOOL PREMISES.

- XII. Teachers shall be held responsible for any want of decorum or neatness about the school premises, and also for all damage done to the school property in their respective rooms during school hours. Any pupil who shall write any indecent language or draw any obscene or indecent pictures or representations on any part of the school premises shall be liable to expulsion.

BOOKS AND UTENSILS.

- XIII. Resident pupils are furnished with the books and utensils required in their respective classes, under the provisions of the statutes.

SUBJECTS TO BE EXPLAINED AND INSTRUCTION TO BE THOROUGH AND PRACTICAL.

- XIV. The teachers are required to illustrate and explain the subjects of study in such language and by such methods of their own as shall find the readiest access to the understanding of the pupils. And the instruction should be thorough, and made practical by showing to the pupils distinctly the various applications to the common affairs of life that may be made of the knowledge they are acquiring at school.

NON-RESIDENTS.

- XV. Non-residents shall not attend the schools of this town except by consent of the Board of Education and the payment of such tuition as shall be determined.

DETENTION OF PUPILS.

- XVI. No pupils shall be detained in the school room during a full session of the school; if deprived of recess from any cause, a reasonable absence shall be granted sometime during the session.

GOVERNMENT OF THE SCHOOL.

- XVII. The discipline of the schools shall be of parental character; such as a kind, judicious and faithful parent would exercise in the family. Corporal punishment shall be resorted to only when other means fail.

SUSPENSION OF PUPILS.

- XVIII. Scholars will be suspended from school for persistent disobedience, and when so suspended will not be allowed to return without permission from the School Committee.

ABSENCE FOR HALF A TERM.

- XIX. Any pupil who shall from any cause absent himself from school for half a term shall not be allowed to rejoin his class without satisfactory evidence of proficiency in the studies pursued during the absence being presented to School Committee.

CONTRIBUTIONS, SUBSCRIPTIONS, ADVERTISEMENTS, &C.

- XX. No contributions or subscriptions shall be introduced into any school; and no person shall be allowed to occupy the time of a school by giving any notice or advertisement to the pupils or teachers, and no person not connected with the schools shall be permitted to address the pupils on any subject not pertaining to their studies, except by permission of the School Committee.

PROMOTION.

- XXI. Promotions will be made at the commencement of the school year, but any pupil who shall excel in scholarship may be promoted at any time upon passing a satisfactory examination by the School Committee. In determining promotions a yearly average of 70 per cent. of correct answers shall be required for entry to the High School, and for promotion from class to class therein. But no scholar shall be promoted who shall rank less than 50 per cent. in any study. Promotions in the Grammar Schools shall be determined in the

same manner, excepting that the required average shall be 66 per cent. and not less than 50 per cent. in any study. In the High and Grammar Schools daily recitations shall be ranked, and considered in finding the general average, equally with written examinations, and an oral examination shall be taken at the close of each school year, and considered likewise.

DIPLOMAS.

- XXII. Diplomas shall be awarded at the close of the school year to such pupils of the High School as shall have completed the prescribed course to the satisfaction of the School Committee. Certificates of graduation will be awarded to all pupils who satisfactorily complete the course of study in the Grammar Schools, but no such certificates will be awarded to pupils whose average per cent. is less than 70 for the last year:

COPY OF REGULATIONS TO BE KEPT IN SCHOOL.

- XXIII. A copy of these regulations shall be kept upon the desk in each school room, and teachers are required to read them before the school at the commencement of each term, and allow visitors to freely consult the same.

CHARLES E. TASKER,
Superintendent.

COURSE OF STUDY

IN THE

PUBLIC SCHOOLS

PRIMARY.—SECOND GRADE.

- Oral Instruction.* Common objects; form, size, color; the five senses; good morals, cleanliness of person and dress. Effects of stimulants.
- Reading, 2d Class.* Commence with elementary sounds and names of letters learned from charts or otherwise. Word teaching. Swinton's First Reader, completed and reviewed.
- 1st Class.* Swinton's Second Reader, completed and reviewed.
- Spelling.* Spelling from the reading lessons by sound and by letter. Two or more lessons each half day.
- Arithmetic, 2d Class.* Counting from 1 to 500.
- 1st Class.* Exercises each day, given by teacher, in addition. Multiplication tables to the table of sixes inclusive.
- Writing.* On ruled slates.
- Drawing.* Drawing at option of teacher.
- Vocal and Physical
Gymnastics.* One short exercise every session.
- Singing.* Two or more exercises each day.

PRIMARY.—FIRST GRADE.

<i>Oral Instruction.</i>	Domestic animals; the three kingdoms of Nature; lines and angles; plain figures, good morals, politeness, cleanliness of person and dress, effects of alcoholic stimulants.
<i>Reading, 2d Class.</i>	Swinton's Third Reader.
<i>1st Class.</i>	Swinton's Third Reader, completed and reviewed.
<i>Drawing.</i>	Drawing at option of teacher.
<i>Spelling.</i>	Spelling from the reading lessons; Clark & Dunton's Normal Course in Spelling. Harper's Spelling Blank.
<i>Arithmetic, 2d Class.</i>	White's Primary Arithmetic, completed and reviewed; White's Intermediate Dictation exercises, and exercises in addition and subtraction, etc., on the blackboard.
<i>1st Class.</i>	Long division. Notation and numeration to the third period.
<i>Geography, 2d Class.</i>	Appleton's First Lessons. Instruction orally from wall maps and moulding board.
<i>1st Class.</i>	Swinton's Intermediate Geography.
<i>Vocal and Physical Gymnastics.</i>	One exercise each session.
<i>Singing.</i>	Two or more exercises each day.
<i>Penmanship.</i>	Appleton's New Graded, No. 1. Special attention to analysis of letters.

INTERMEDIATE.

<i>Oral Instruction.</i>	Good morals, politeness, cleanliness of person and dress; hygiene and effects of alcohol on the human system.
<i>Reading, 2d Class.</i>	Swinton's Fourth Reader; particular attention given to pronunciation, punctuation, and emphasis.
<i>1st Class.</i>	Swinton's Fourth Reader. Supplementary. Nature Readers.

- Spelling.* Clark & Dunton's Normal Course; definitions, abbreviations, and meaning of new words in studies pursued, explained at the time of recitation. Harper's Spelling and Dictation Blank.
- Grammar, 1st Class.* Powell's How to Talk.
- Arithmetic, 2d Class.* White's Intermediate, with review. Walton's Intellectual Arithmetic. Frequent exercises in notation and numeration to the ninth period.
- 1st Class.* White's Intermediate, completed, with review.
- Geography, 2d Class.* Swinton's Introductory Geography, completed.
- 1st Class.* Swinton's Grammar School Geography.
- Penmanship.* Appleton's New Graded, No.'s 2 and 3. Special attention shall be given to the analysis of letters.
- Physical Gymnastics.* One exercise each day.
- Singing.* One or more exercises each day.
- Declamation.* Twice each term. On Friday afternoon of the fourth and eighth weeks.
- Written examination of 1st Class each term by teacher.

GRAMMAR.—SECOND GRADE.

- Oral Instruction.* In Grammar: exercises in correcting common grammatical errors, and in distinguishing the different parts of speech; physiology and hygiene and the effects of stimulants on the human system.
- Reading, 2d Class.* Swinton's Fourth Reader, completed.
- 1st Class.* Swinton's Fifth Reader, particular attention given to pronunciation, punctuation, emphasis, and the use of capitals. Definitions and abbreviations. Supplementary, Our World Readers.
- History, 2d Class.* Goodrich's Child's History of U. S.
- 1st Class.* Barnes' History of U. S.
- Arithmetic, 2d Class.* White's Complete.
- 1st Class.* Walton's Intellectual Arithmetic. White's Complete Arithmetic, with review; frequent exercises in notation and numeration to the ninth period.

- Geography, 2d Class.* Swinton's Grammar School Geography.
1st Class. Swinton's Grammar School Geography.
- Spelling.* Clark & Dunton's Normal Course in Spelling. Harper's Spelling Book.
- Grammar, 2d Class.* Ricker's First Lessons in Grammar.
1st Class. Patterson's Grammar.
- Penmanship.* Appleton's New Graded, No.'s 4 and 6.
- Declamation and Composition.* Twice each term.
 Written examination each term by teacher.

GRAMMAR.—FIRST GRADE.

- Oral Instruction.* Government—National, State and Municipal affairs.
- Reading, 2d Class.* Swinton's Fifth Reader.
1st Class. Swinton's Fifth Reader completed. Supplementary reading, Fiske-Irving's Washington and His Country.
- Spelling.* Clark & Dunton's Normal Course in Spelling.
- Physiology and Hygiene, 1st Class.* Smith's Human Body. Steele's Physiology.
- Arithmetic, 2d Class.* White's Complete Arithmetic. Walton's Intellectual Arithmetic. Practical questions outside of text-book given by teacher.
1st Class. Walton's Intellectual Arithmetic completed. Wentworth's Grammar School Arithmetic. completed and reviewed.
- Geography, 2d Class.* Swinton's Grammar School Geography, finished and reviewed.
1st Class. General exercises in Historical Geography and general review.
- Grammar, 2d Class.* Patterson's Grammar.
1st Class. Patterson's Grammar, completed.
- History, 2d Class.* Barnes' United States History.
1st Class. Barnes' United States History, completed.
- Penmanship.* Appleton's New Graded, No. 8.
- Declamation and Composition.* Twice each term. Declamations shall be on Friday afternoon of the fourth and eighth weeks.
 Written examinations each term by teacher.

HIGH SCHOOL.

ENGLISH COURSE.

JUNIOR YEAR—FIRST TERM.

Algebra, English Grammar, Physical Geography.

SECOND TERM.

Algebra, English Grammar, General History, Physical Geography.

THIRD TERM.

Algebra, General History, Book-Keeping.

MIDDLE YEAR—FIRST TERM.

Geometry, Physics, Rhetoric.

SECOND TERM.

Geometry, Physics, Rhetoric.

THIRD TERM.

Geometry, Civil Government, Political Economy.

SENIOR YEAR—FIRST TERM.

Astronomy, Arithmetic, English History.

SECOND TERM.

Arithmetic, Astronomy completed, Chemistry, English History completed, English Literature.

THIRD TERM.

Algebra, English Literature completed, Chemistry.

Exercises in Reading, Spelling, Declamation and Composition continued throughout the course. Declamations Friday afternoon of the fourth and eighth weeks of each term.

Written examinations each term by teacher.

N. B. During the first two terms of Junior Year, Physiology may take the place of English Grammar, at option of the teacher.

HIGH SCHOOL.

CLASSICAL COURSE.

PUBLIC LIBRARY.

REPORT OF LIBRARIAN.

The Public Library continues to receive a generous patronage from our citizens, considering the great change which has taken place in our population during the past few years, but the demand seems to be for light reading rather than for substantial literature. Some books have required new binding, while others have been condemned as worthless from constant use, consequently the catalogue does not represent the exact number of books in circulation.

The card system has been introduced during the year, and greatly facilitates the distribution of books. Some new books have been added, and a sufficient number selected, but not received at the time of making this report, to exhaust the appropriation.

JOSEPH L. ELKINS, *Librarian.*
